

ILLUMINA SERVICES PRICE LIST

Expression BeadChip

Service (Includes Whole Genome BeadChip)	# of Arrays per slide	Base Price (1-2 slides) ¹	Bulk Price (3+ slides) ²
Human WG-6 v3	6	\$1,980	Inquire
Mouse WG-6 v2	6	\$1,980	Inquire
Human HT-12 v4	12	\$3,600	Inquire
Service (Includes RefSeq BeadChip)	# of Arrays per slide	Base Price (1-2 slides) ¹	Bulk Price (3+ slides) ²
Human Ref-8 v3	8	\$2,000	Inquire
Mouse Ref-8 v2	8	\$2,000	Inquire
Rat Ref-12	12	\$3,000	Inquire

DASL Gene Expression

Service (Includes BeadChip)	# of Arrays per slide	Base Price (1-2 slides) ¹	Bulk Price (3+ slides) ²
Human Ref-8 v3	8	\$2,400	Inquire
Human Cancer Panel	96	\$9,600	Inquire

Genotyping

Service (Includes BeadChip)	# of Arrays per slide	Base Price (1-3 slides)	Bulk Price (4+ slides) ²
HumanOmniExpress-12 (> 700K markers)	12	\$4,500	Inquire
HumanCytoSNP-12 v2.1 (~ 300K markers)	12	\$3,600	Inquire
HumanOmni-1 Quad (> 1 million markers)	4	\$2,600	Inquire
Human660W-Quad (> 658K markers)	4	\$2,200	Inquire

All prices subject to change without prior notice.

¹ Pricing for gene expression is based on standard Illumina labeling (from >50 ng total RNA). For smaller amounts of starting material (25-50 ng range of RNA), amplification will be required employing the NuGen's amplification kits where additional charges will be applicable. For miRNA expression profiling, a minimum of 200ng total RNA is required. Please contact us for details. Some arrays may only be available in set volumes, please contact us at <illumina@microarrays.ca> for an official quotation.

² For project with multiple samples, please contact us for price quotation.
