

# ILLUMINA SERVICES PRICE LIST

## Expression BeadChip

<b>Service (Includes Whole Genome and RefSeq BeadChips)</b>	<b># of Arrays per slide</b>	<b>Base Price (1-2 slides)<sup>1</sup></b>	<b>Bulk Price (3+ slides)<sup>2</sup></b>
Human HT-12 v4	12	\$3,000	Inquire
Mouse WG-6 v2	6	\$1,980	Inquire
Mouse Ref-8 v2	8	\$2,000	Inquire

## DASL Gene Expression

<b>Service (Includes BeadChip)</b>	<b># of Arrays per slide</b>	<b>Base Price (1-2 slides)<sup>1</sup></b>	<b>Bulk Price (3+ slides)<sup>2</sup></b>
Human HT-12 v4	12	\$3,960	Inquire
Human Ref-8 v3	8	\$2,400	Inquire

## Genotyping (also available for FFPE samples<sup>3</sup>)

<b>Service (Includes BeadChip)</b>	<b># of Arrays per slide</b>	<b>Base Price (1-3 slides)</b>	<b>Bulk Price (4+ slides)<sup>2</sup></b>
HumanOmniExpress-12 (> 700K markers)	12	\$4,500	Inquire
HumanCytoSNP-12 v2.1 (~ 300K markers)	12	\$3,600	Inquire
HumanOmni-1 Quad (> 1 million markers)	4	\$2,600	Inquire

## Methylation

<b>Service (Includes BeadChip)</b>	<b># of Arrays per slide</b>	<b>Base Price (1-2 slides)<sup>1</sup></b>	<b>Bulk Price (3+ slides)<sup>2</sup></b>
Infinium Human Methylation 27 <sup>4</sup>	12	\$4,800	Inquire
Infinium Human Methylation 450 <sup>4</sup>	12	\$6,000	Inquire

All prices subject to change without prior notice.

<sup>1</sup> Pricing for gene expression is based on standard Illumina labeling (from >50 ng total RNA). For smaller amounts of starting material (25-50 ng range of RNA), amplification will be required employing the NuGen's amplification kits where additional charges will be applicable. Please contact us for details. Some arrays may only be available in set volumes, please contact us for a quotation.

<sup>2</sup> For project with multiple samples, please contact us for price quotation.

<sup>3</sup> Genotyping of FFPE samples is available with modified protocol. Please contact us for details.

<sup>4</sup> For methylation services, bisulphite-converted DNA is required. Please contact us for details.
